I took your version, added the header and forwarded to Christine. I checked several times in her office but I think she left. Just in case, I will forward to the RA's office.

I'm sorry to be nitpicky when you did all the changes and it turns out I (kind of) can make changes! But I found a couple of minor formatting things from my original version. If Christine has changes, can you also make a few more changes? I tried to get the table onto one page and thought it would be good to add the internal EPA - Deliberative as a header to save space (and so it's on every page).

But if it doesn't happen, that's okay too. Thanks!!

Hi Christine,

Attached is the briefing document minus the comments. Are you planning to review the document and forward to the RA's office or would you like me to forward to the RA's office?

Jayne, thanks for putting in the last edits! For Christine to send it up to Dennis, we should also take out all comments and maybe change the heading(?). I haven't done a last read through, but may try to do that now (but don't let me hold up sending it up to Dennis.)

Hi All,

The attached version incorporates JB's edits and Helen's information on number of river miles in Oregon's coastal zone impaired for temperature and sediment.

I also attached the tracked version showing changes from version 4.
